Good afternoon Mr. Rountree.

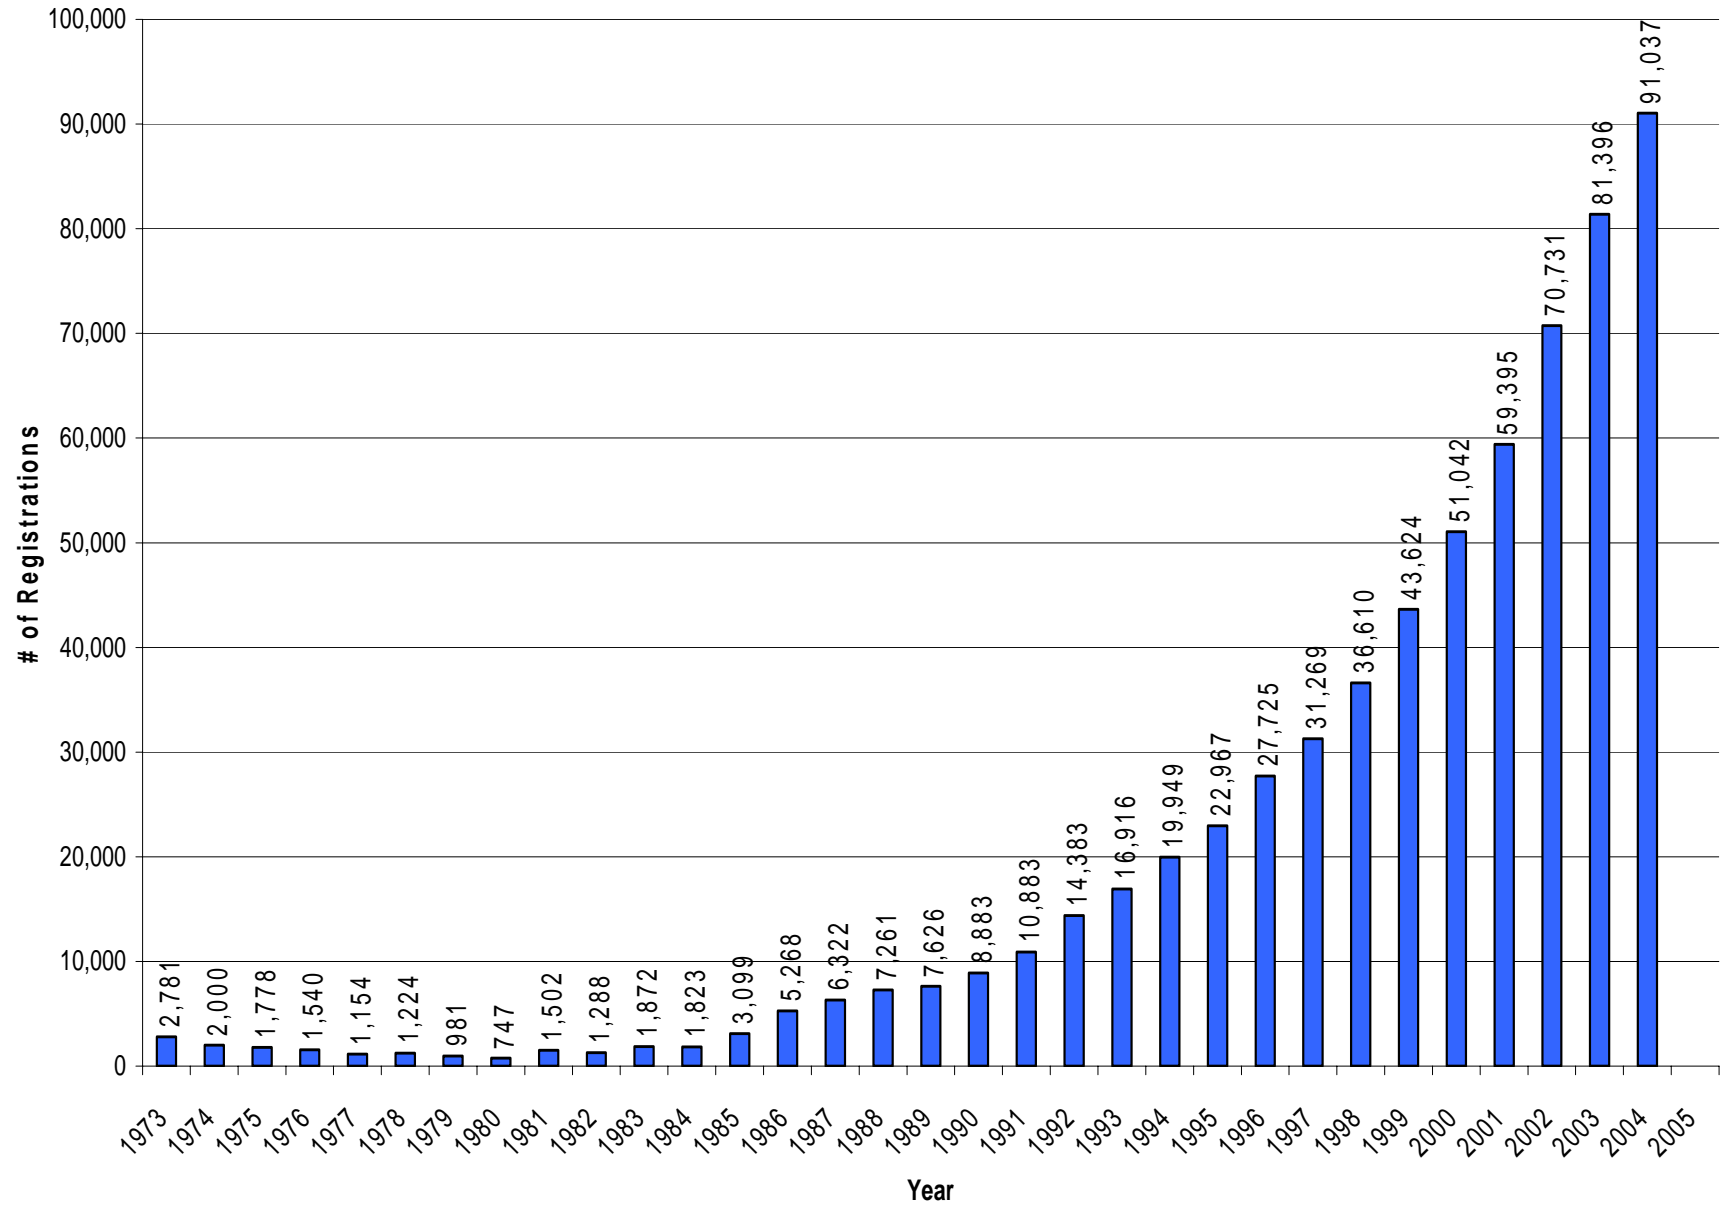

In a discussion I had with Ernie Lombard earlier today, he asked that I share Idaho's rapidly growing ATV/Motorbike registration numbers with you.

Recreation demand today:

As the number of cars on Idaho's roads begin to reach a plateau, consumption of fuel for recreational purposes continues to increase. Citizens are utilizing fuels to play in Idaho's backcountry more now than ever before.

The included excel spreadsheet contains a graph [growth chart] that illustrates the dramatic increase in Idaho ATV/Motorbike registrations over the last ten years. As you can see, recreational demand is high and Idaho's favorite fuel consuming sports are more popular than ever before.

If I can provide additional information, please don't hesitate to contact me.
